MARY L. BORYSEWICZ, *Executive Editor*

SUBJECT INDEX

NOTE: Abstract Index follows Author Index

A

Abducens nerve
Paresis of the abducens nerve after trivial head injury (letter), 387

***Acanthamoeba* sp.**
Bilateral *Acanthamoeba* keratitis and gas-permeable contact lenses (letter), 651

Acetazolamide
Substitution of acetohexamide for acetazolamide (letter), 379

Acetohexamide
Substitution of acetohexamide for acetazolamide (letter), 379

Acquired immunodeficiency syndrome
Association of herpes zoster ophthalmicus with acquired immunodeficiency syndrome and acute retinal necrosis, 297

Conjunctival Kaposi's sarcoma treated with interferon alpha-2a (letter), 502

Endogenous endophthalmitis caused by *Bipolaris hawaiiensis* in a patient with acquired immunodeficiency syndrome (letter), 644

Hodgkin's lymphoma of the orbit associated with acquired immunodeficiency syndrome (letter), 111

Ophthalmic manifestations of infections with with *Cryptococcus neoformans* in patients with the acquired immunodeficiency syndrome, 721

Optic nerve sheath decompression for visual loss in patients with acquired immunodeficiency syndrome and cryptococcal meningitis with papilledema, 472

Recurrence of presumed varicella-zoster virus retinopathy in patients with acquired immunodeficiency syndrome, 42

Acute hemorrhagic conjunctivitis
A recent epidemic of acute hemorrhagic conjunctivitis, 212

Acute retinal necrosis
Association of herpes zoster ophthalmicus with acquired immunodeficiency syndrome and acute retinal necrosis, 297

Giant retinal pigment epithelial tears in acute retinal necrosis, 302

Addison's disease
Pseudotumor cerebri in a 12-year-old boy with Addison's disease (letter), 650

Aging
The effect of optical defocus on the pattern electroretinogram in normal subjects and patients with Alzheimer's disease, 363

Lipid exudation in age-related macular degeneration, 140

Pattern-reversal electroretinographic follow-up of laser photocoagulation for subfoveal lesions in age-related macular degeneration, 148

Subretinal endophotocoagulation in the treatment of choroidal neovascularization, 279

Albinism
Positron emission tomography and ^{18}F-fluorodeoxyglucose for the detection of visual pathway abnormalities in albinism (letter), 112

Amblyopia
Depth of anisometropic amblyopia and difference in refraction, 431

Tobacco amblyopia, 84

Anesthesia
Corneal ulcer caused by combined intravenous and anesthetic abuse of cocaine (letter), 241

Angioid streaks
Laser treatment of choroidal neovascularization in patients with angioid streaks, 414

Anisometropia
Depth of anisometropic amblyopia and difference in refraction, 431

Anophthalmia
Anophthalmic socket pain, 357

Anterior segment
Subconjunctival miconazole and anterior segment blastomycosis (letter), 506

Antibiotic
Comparison of topical antibiotics for treating *Mycobacterium fortuitum* keratitis in an animal model, 700

Antibody
Anticardiolipin antibodies in isolated retinal vasculitis (letter), 769

Anticardiolipin
Anticardiolipin antibodies in isolated retinal vasculitis (letter), 769

Antigen
Behçet's disease associated with one of the HLA-B51 subantigens, HLA-B 5101, 406

Cell proliferation as a prognostic indicator in conjunctival malignant melanoma, 93

Apraclonidine
Effects of apraclonidine on intraocular pressure and blood-aqueous barrier permeability after phacoemulsification and intraocular lens implantation, 67

Aqueous humor
Aqueous humor dynamics in low-tension glaucoma, 590

Aqueous tube-shunt implantation and pars plana vitrectomy in eyes with refractory glaucoma, 189

Arnold-Chiari malformation
Lithium-induced downbeat nystagmus in a patient with Arnold-Chiari malformation (letter), 648

Artery
Combined embolization and surgical treatment of arteriovenous malformation of the orbit (correspondence), 655

Hyperopia as a risk factor for nonarteritic anterior ischemic optic neuropathy, 754

Unilateral posterior lenticonus with persistent hyaloid artery remnant (letter), 104

Atopic keratoconjunctivitis
Conjunctival epithelial cell hypermitosis and goblet cell hyperplasia in atopic keratoconjunctivitis, 456

B

Basal cell
Basal cell carcinoma of the conjunctiva (letter), 244

Behçet's disease
Behçet's disease associated with one of the HLA-B51 subantigens, HLA-B 5101, 406

Betaxolol
A double-masked comparison of betaxolol and dipivefrin for the treatment of increased intraocular pressure, 307

Biomicroscopy
Use of ultrasound biomicroscopy in the assessment of anterior scleral disease, 628

***Bipolaris* sp.**
Endogenous endophthalmitis caused by *Bipolaris hawaiiensis* in a patient with acquired immunodeficiency syndrome (letter), 644

***Blastomyces* sp.**
Subconjunctival miconazole and anterior segment blastomycosis (letter), 506

Blepharospasm
Muscle loss from doxorubicin injections into the eyelids of a patient with blepharospasm (letter), 646

Blink
Blink-associated eye movements with contact-lens wear (letter), 240

Blood-aqueous barrier
Effects of apraclonidine on intraocular pressure and blood-aqueous barrier permeability after phacoemulsification and intraocular lens implantation, 67

Books and Computer Software
Atlas of Fluorescein Angiography, by Jalkh, A. E., and Celorio, J. M., 781

Atlas of Pediatric Ophthalmology and Strabismus Surgery, by Del Monte, M. A., and Archer, S. M., 117

Cataracts. Revised Edition. The Complete Guide From Diagnosis to Recovery for Patients and Families, by Shulman, J., 658

Cell Wall Deficient Forms. Stealth Pathogens, ed. 2., by Mattman, L. H., 659

Clear-Corneal Cataract Surgery and Topical Anesthesia, by Fine, I. H., Fichman, R. A., and Grabow, H. B., 659

Color Atlas of Corneal Topography. Interpreting Videokeratography, by Rabinowitz, Y. S., Wilson, S. E., and Klyce, S. D., 658

Corneal Topography. Measuring and Modifying the Cornea, by Schanzlin, D. J., and Robin, J. B. (eds.), 257

Developments in Ophthalmology. Endocrine Ophthalmology. Molecular, Immunological and Clinical Aspects, by Kathaly, G. (ed.), 783

Diseases Affecting the Eye and the Kidney, by Regenbogen, L. S., and Eliahou, H. E. (eds.), 119

The Dry Eye. A Comprehensive Guide, by Lemp, M. A., and Marquardt, R. (eds.), 390

Duane's Ophthalmology, by Tasman, W. T., and Jaeger, E. A. (eds.), 519

Duke-Elder's Practice of Refraction, ed. 10, by Abrams, D. (ed.), 782

Foldable Intraocular Lenses, by Martin, R. G., Gills, J. P., and Sanders, D. R., (eds.), 659

Glaucoma. Diagnosis & Therapy. Transactions of the New Orleans Academy of Ophthalmology, by Ball, S. F., and Franklin, R. M. (eds.), 783

A History of Medicine, by Magner, L. N., 119

Neuro-vascular Neuro-ophthalmology, by Kupersmith, M. J., and Berenstein, A., 389

Ocular Cytopathology, by Glasgow, B. J., and Foos, R. Y., 257

Ophtalmologie de l'enfant. Neurologie et genetique, by Urvoy, M., Le Berre, C., and Le Marec, B., 389

The Ophthalmology Office Manual, by Weinstock, F. J., 781

Ophthalmology Oral History Series. A Link With Our Past. An Interview With DuPont Guerry III, M.D., by Hughes, S. S., 520

The Pupil. Anatomy, Physiology and Clinical Applications, Vols. I and II, by Loewenfeld, I. E., 117

Recent Advances in Uveitis, by Dernouchamps, J. P., Verougstraete, C., Caspers-Velu, L., and Tassignon, M. J. (eds.), 520

Retinopathy of Prematurity. A Clinician's Guide, by Flynn, J. T., and Tasman, W. (eds.), 258

The Video Atlas of Cosmetic Blepharoplasty, by Bosniak, S., 520

Brown's syndrome
Acquired Brown's syndrome after a double-plate Molteno implant (letter), 641

Bruch's membrane
Membranoproliferative glomerulonephritis type II associated with central serous retinopathy, 410

C

Cannula
The retinal irradiance and spectral properties of the multiport illumination system for vitreous surgery, 489

Cantholysis
Medial canthotomy and cantholysis in eyelid reconstruction, 218

Canthotomy
Medial canthotomy and cantholysis in eyelid reconstruction, 218

Capsule
Management of the posterior capsule during pediatric intraocular lens implantation (correspondence), 656

Carcinoma
Basal cell carcinoma of the conjunctiva (letter), 244

Carotid
Ocular and orbital toxicity after intracarotid cisplatin therapy (letter), 508

Carteolol
Effects of ocular carteolol and timolol on plasma high-density lipoprotein cholesterol level, 600

Cataract
Another reevaluation of combined cataract and glaucoma surgery (correspondence), 517

Anterior hyaloidal fibrovascular proliferation after extracapsular cataract extraction in diabetic eyes (correspondence), 252

Effects of apraclonidine on intraocular pressure and blood-aqueous barrier permeability after phacoemulsification and intraocular lens implantation, 67

Management of the posterior capsule during pediatric intraocular lens implantation (correspondence), 656

Paresis of a vertical rectus muscle after cataract extraction, 424

Specular microscopy and fluorophotometry in the diagnosis of epithelial downgrowth after a sutureless cataract operation (letter), 238

Symptomatic intraocular reflections from oval intraocular lens implants (letter), 374

Trabeculectomy, phacoemulsification, and posterior chamber lens implantation with and without 5-fluorouracil, 594

Ceftriaxone
Long-term effects of ceftriaxone treatment on intraocular Lyme borreliosis, 571

Central serous retinopathy
Membranoproliferative glomerulonephritis type II associated with central serous retinopathy, 410

Nadolol in the treatment of central serous retinopathy (letter), 770

Central visual impairment
The visual-evoked response in infants with central visual impairment, 437

Channel blocker
Calcium channel blockers in the management of low-tension and open-angle glaucoma (correspondence), 778

Chiasm
Chiasmal compression from fat packing after transsphenoidal resection of intrasellar tumor in two patients (correspondence), 253

Children
Children with exotropia responsive to spectacle correction of hyperopia, 79

Growth of the human optic disk and nerve during gestation, childhood, and early adulthood, 748

Management of the posterior capsule during pediatric intraocular lens implantation (correspondence), 656

Spontaneous orbital hemorrhage in a child with autoimmune hepatitis (letter), 384

Chondroitin sulfate
Optisol containing streptomycin (letter), 503

Choroid
Choroidal nonperfusion in giant cell arteritis, 171

Laser treatment of choroidal neovascularization in patients with angioid streaks, 414

Subretinal endophotocoagulation in the treatment of choroidal neovascularization, 279

Ciprofloxacin
The role of ciprofloxacin in endophthalmitis therapy, 695

Cocaine
Corneal ulcer caused by combined intravenous and anesthetic abuse of cocaine (letter), 241

Coccidioidomycosis
Ocular coccidioidomycosis (letter), 249

Collagen shield
Collagen shields impregnated with gentamicin-dexamethasone as a potential drug delivery device, 622

Confocal microscope
Diagnosis of advanced Fuchs' endothelial dystrophy with the confocal microscope (letter), 652

Conjunctiva
Basal cell carcinoma of the conjunctiva (letter), 244

Cell proliferation as a prognostic indicator in conjunctival malignant melanoma, 93

Conjunctival epithelial cell hypermitosis and goblet cell hyperplasia in atopic keratoconjunctivitis, 456

Conjunctival keratoacanthoma (letter), 654

Conjunctival structure and cell counts and the results of filtering surgery, 464

Recurrent herpes simplex infection in a conjunctival flap (letter), 242

Contact lens
Bilateral *Acanthamoeba* keratitis and gas-permeable contact lenses (letter), 651

Blink-associated eye movements with contact-lens wear (letter), 240

Eyelid retraction as a complication of an embedded hard contact lens (letter), 102

Cornea
An adjustable double running suture technique for keratoplasty, 201

Clinical follow-up of phototherapeutic keratectomy for treatment of corneal opacities (correspondence), 256

Collagen shields impregnated with gentamicin-dexamethasone as a potential drug delivery device, 622

Corneal allograft rejection after multiple blood transfusions, 451

Corneal edema after miochol (letter), 236

Corneal endothelial changes after excimer laser photorefractive keratectomy, 692

Corneal iron lines associated with the intrastromal corneal ring, 350

Corneal ulcer caused by combined intravenous and anesthetic abuse of cocaine (letter), 241

Intracorneal hemorrhage with acute glaucoma (letter), 376

Optisol containing streptomycin (letter), 503

Traumatic corneal abrasions after excimer laser keratectomy (letter), 101

Visual improvement as a function of time after lamellar keratoplasty for keratoconus, 207

Correction
Pneumococcal endophthalmitis associated with nasolacrimal obstruction—correction (correspondence), 780

Corticosteroid
Intraocular lymphoma after liver transplantation (letter), 507

Coxsackievirus
A recent epidemic of acute hemorrhagic conjunctivitis, 212

***Cryptococcus* sp.**
Ophthalmic manifestations of infections with with *Cryptococcus neoformans* in patients with the acquired immunodeficiency syndrome, 721

Optic nerve sheath decompression for visual loss in patients with acquired immunodeficiency syndrome and cryptococcal meningitis with papill-edema, 472

Cyst
Congenital cysts of the iris stroma, 228

Cysticercosis
Cysticercosis as a cause of severe medial rectus muscle myositis (letter), 510

Cystoid macular edema
Classification of aphakic cystoid macular edema with focal macular electroretinograms, 576

Cytomegalovirus retinitis
Risk factors for development of rhegmatogenous retinal detachment in patients with cytomegalovirus retinitis, 713

D

Dacryocystorhinostomy
Holmium:YAG endonasal laser dacryocystorhinostomy, 1

Decompression
Optic nerve sheath decompression for visual loss in patients with acquired immunodeficiency syndrome and cryptococcal meningitis with papill-edema, 472

Results of transantral orbital decompression in 428 patients with severe Graves' ophthalmopathy, 533

A simplified technique of orbital decompression for severe retrobulbar hemorrhage, 34

Descemet's membrane
Late detachment of Descemet's membrane after subconjunctival THC:YAG (holmium) laser thermal sclerostomy ab externo (letter), 514

Dexamethasone
Collagen shields impregnated with gentamicin-dexamethasone as a potential drug delivery device, 622

Diabetes mellitus
Effect of insulin therapy on progression of retinopathy in noninsulin-dependent diabetes mellitus (correspondence), 516

Diabetic retinopathy
Anterior hyaloidal fibrovascular proliferation after extracapsular cataract extraction in diabetic eyes (correspondence), 252

Effect of insulin therapy on progression of retinopathy in noninsulin-dependent diabetes mellitus (correspondence), 516

Relative letter and position difficulty on visual acuity charts from the early treatment diabetic retinopathy study, 735

Dipivefrin
A double-masked comparison of betaxolol and dipivefrin for the treatment of increased intraocular pressure, 307

Disk
Comparison of Nidek 3Dx and Donaldson simultaneous stereoscopic disk photography, 741

Doxorubicin
Muscle loss from doxorubicin injections into the eyelids of a patient with blepharospasm (letter), 646

Doxycycline
Efficacy of doxycycline and tetracycline in ocular rosacea, 88

E

Edema
Corneal edema after miochol (letter), 236

Pseudotumor cerebri in a 12-year-old boy with Addison's disease (letter), 650

Editorials
Laser weapons designed to produce blindness (TENGROTH, B. M.), 370

Vitrectomy surgery for full-thickness macular holes (FREEMAN, W. R.), 233

Electroretinography
Classification of aphakic cystoid macular edema with focal macular electroretinograms, 576

The effect of optical defocus on the pattern electroretinogram in normal subjects and patients with Alzheimer's disease, 363

Embolization
Combined embolization and surgical treatment of arteriovenous malformation of the orbit (correspondence), 655

Embolus
Combined embolization and surgical treatment of arteriovenous malformation of the orbit, 17

***Encephalitozoon* sp.**
Microsporidal keratoconjunctivitis (letter), 380

Endophthalmitis
Endogenous endophthalmitis caused by *Bipolaris hawaiiensis* in a patient with acquired immunodeficiency syndrome (letter), 644

Endophthalmitis caused by *Staphylococcus aureus*, 584

Pneumococcal endophthalmitis associated with nasolacrimal obstruction, 56

Pneumococcal endophthalmitis associated with nasolacrimal obstruction—correction (correspondence), 780

Postoperative endophthalmitis resulting from prosthesis contamination in a monocular patient, 346

Propionibacterium acnes endophthalmitis after *Staphylococcus epidermidis* endophthalmitis (letter), 505

Retinal hemorrhages as an early sign of acute bacterial endophthalmitis (letter), 247

The role of ciprofloxacin in endophthalmitis therapy, 695

Enucleation
Prevention of enucleation of two phthisic eyes by removal of extruding silicone scleral buckles (letter), 645

Epithelial downgrowth
Specular microscopy and fluorophotometry in the diagnosis of epithelial downgrowth after a sutureless cataract operation (letter), 238

Exotropia
Children with exotropia responsive to spectacle correction of hyperopia, 79

Eyelid
Composite grafting for eyelid reconstruction, 11

Eyelid retraction as a complication of an embedded hard contact lens (letter), 102

Marginal eyelid laceration after episiotomy (letter), 778

Medial canthotomy and cantholysis in eyelid reconstruction, 218

Muscle loss from doxorubicin injections into the eyelids of a patient with blepharospasm (letter), 646

Peripunctal eyelid oncocytoma (letter), 385

Rosai-Dorfman disease involving four eyelids (letter), 382

F

Filtering surgery
Application of mitomycin C during filtering surgery (letter), 377

Conjunctival structure and cell counts and the results of filtering surgery, 464

Fluorouracil
A prospective trial of intraoperative fluorouracil during trabeculectomy in a black population, 612

Trabeculectomy, phacoemulsification, and posterior chamber lens implantation with and without 5-fluorouracil, 594

Forceps
25-Gauge intraocular forceps (letter), 251

Foreign body
An unusual organic xenogeneic intraocular foreign body (letter), 107

Fovea
Pattern-reversal electroretinographic follow-up of laser photocoagulation for subfoveal lesions in age-related macular degeneration, 148

Fuchs' endothelial dystrophy
Diagnosis of advanced Fuchs' endothelial dystrophy with the confocal microscope (letter), 652

G

Genetics
DNA diagnosis of Leber's hereditary optic neuropathy by using dried blood specimens (letter), 773

The prevalence of retinitis pigmentosa and congenital stationary night blindness in Israel (letter), 373

Gentamicin
Collagen shields impregnated with gentamicin-dexamethasone as a potential drug delivery device, 622

Giant cell arteritis
Choroidal nonperfusion in giant cell arteritis, 171

Glaucoma
Acquired Brown's syndrome after a double-plate Molteno implant (letter), 641

Another reevaluation of combined cataract and glaucoma surgery (correspondence), 517

Application of mitomycin C during filtering surgery (letter), 377

Aqueous humor dynamics in low-tension glaucoma, 590

Aqueous tube-shunt implantation and pars plana vitrectomy in eyes with refractory glaucoma, 189

Asymmetric pigmentary glaucoma caused by unilateral angle recession (letter), 765

Calcium channel blockers in the management of low-tension and open-angle glaucoma (correspondence), 778

Conjunctival structure and cell counts and the results of filtering surgery, 464

A double-masked comparison of betaxolol and dipivefrin for the treatment of increased intraocular pressure, 307

Effects of ocular carteolol and timolol on plasma high-density lipoprotein cholesterol level, 600

An evaluation of clusters in the glaucomatous visual field, 684

Factors associated with visual loss in patients with advanced glaucomatous changes in the optic nerve head, 176

Histopathologic characteristics of failed holmium laser sclerostomy (letter), 766

Intracorneal hemorrhage with acute glaucoma (letter), 376

Late detachment of Descemet's membrane after subconjunctival THC:YAG (holmium) laser thermal sclerostomy ab externo (letter), 514

Lateral geniculate nucleus in glaucoma, 182

Predicted outcome from hypotensive therapy for glaucomatous optic neuropathy, 636

A prospective trial of intraoperative fluorouracil during trabeculectomy in a black population, 612

Trabeculectomy with mitomycin C for refractory glaucoma in blacks, 72

Trabeculectomy, phacoemulsification, and posterior chamber lens implantation with and without 5-fluorouracil, 594

Treatment and prognosis of secondary glaucoma in Fuchs' heterochromic iridocyclitis, 327

An ultrasound biomicroscopic analysis of angle-closure glaucoma secondary to ciliochoroidal effusion in IgA nephropathy, 341

Globe

Measurement and relationship of subarachnoid pressure of the optic nerve to intracranial pressures in fresh cadavers, 548

Goblet cell

Conjunctival epithelial cell hypermitosis and goblet cell hyperplasia in atopic keratoconjunctivitis, 456

Graft

Composite grafting for eyelid reconstruction, 11

Corneal allograft rejection after multiple blood transfusions, 451

Graves' ophthalmopathy

Results of transantral orbital decompression in 428 patients with severe Graves' ophthalmopathy, 533

H

Hemangioma

Vitrectomy for persistent vitreous hemorrhage from a cavernous hemangioma of the optic disk (letter), 106

Hemorrhage

Intracorneal hemorrhage with acute glaucoma (letter), 376

Retinal hemorrhages as an early sign of acute bacterial endophthalmitis (letter), 247

A simplified technique of orbital decompression for severe retrobulbar hemorrhage, 34

Spontaneous orbital hemorrhage in a child with autoimmune hepatitis (letter), 384

Hepatitis

Spontaneous orbital hemorrhage in a child with autoimmune hepatitis (letter), 384

Herpes simplex

Recurrent herpes simplex infection in a conjunctival flap (letter), 242

Herpes zoster ophthalmicus

Association of herpes zoster ophthalmicus with acquired immunodeficiency syndrome and acute retinal necrosis, 297

Heterochromic iridocyclitis

Treatment and prognosis of secondary glaucoma in Fuchs' heterochromic iridocyclitis, 327

Hyaloid

Unilateral posterior lenticonus with persistent hyaloid artery remnant (letter), 104

Hypermitosis

Conjunctival epithelial cell hypermitosis and goblet cell hyperplasia in atopic keratoconjunctivitis, 456

Hyperopia

Children with exotropia responsive to spectacle correction of hyperopia, 79

Hyperopia as a risk factor for nonarteritic anterior ischemic optic neuropathy, 754

Hyperplasia

Conjunctival epithelial cell hypermitosis and goblet cell hyperplasia in atopic keratoconjunctivitis, 456

Hypotony

Clinical and histopathologic observations concerning hypotony after trabeculectomy with adjunctive mitomycin C, 673

Ocular hypotony after trabeculectomy with mitomycin C, 314

I

Immunoglobulin
An ultrasound biomicroscopic analysis of angle-closure glaucoma secondary to ciliochoroidal effusion in IgA nephropathy, 341

Indocyanine green
Indocyanine green angiographic findings in pseudoxanthoma elasticum (letter), 767

Infants
Growth of the human optic disk and nerve during gestation, childhood, and early adulthood, 748
Marginal eyelid laceration after episiotomy (letter), 778
The visual-evoked response in infants with central visual impairment, 437

Insulin
Effect of insulin therapy on progression of retinopathy in noninsulin-dependent diabetes mellitus (correspondence), 516

Interferon
Conjunctival Kaposi's sarcoma treated with interferon alpha-2a (letter), 502

Intraocular lens
Effects of apraclonidine on intraocular pressure and blood-aqueous barrier permeability after phacoemulsification and intraocular lens implantation, 67
Management of the posterior capsule during pediatric intraocular lens implantation (correspondence), 656
Symptomatic intraocular reflections from oval intraocular lens implants (letter), 374
Trabeculectomy, phacoemulsification, and posterior chamber lens implantation with and without 5-fluorouracil, 594

Intraocular pressure
Acquired Brown's syndrome after a double-plate Molteno implant (letter), 641
A double-masked comparison of betaxolol and dipivefrin for the treatment of increased intraocular pressure, 307
Effects of apraclonidine on intraocular pressure and blood-aqueous barrier permeability after phacoemulsification and intraocular lens implantation, 67
Effects of ocular carteolol and timolol on plasma high-density lipoprotein cholesterol level, 600
Reproducibility of postural changes in intraocular pressure with the Tono-Pen and Pulsair tonometers, 479
Use of a Tono-Pen for long-term home tonometry (letter), 643

Iris
Congenital cysts of the iris stroma, 228

Ischemic optic neuropathy
The efficacy of optic nerve sheath decompression for anterior ischemic optic neuropathy and other optic neuropathies (correspondence), 254
Hyperopia as a risk factor for nonarteritic anterior ischemic optic neuropathy, 754
Optic disk risk factors for nonarteritic anterior ischemic optic neuropathy, 759

K

Kaposi's sarcoma
Conjunctival Kaposi's sarcoma treated with interferon alpha-2a (letter), 502

Keratectomy
Clinical follow-up of phototherapeutic keratectomy for treatment of corneal opacities (correspondence), 256
Corneal endothelial changes after excimer laser photorefractive keratectomy, 692
Traumatic corneal abrasions after excimer laser keratectomy (letter), 101

Keratitis
Bilateral *Acanthamoeba* keratitis and gas-permeable contact lenses (letter), 651
Comparison of topical antibiotics for treating *Mycobacterium fortuitum* keratitis in an animal model, 700

Keratitis sicca
A prospective, randomized comparison of thermal cautery and argon laser for permanent punctal occlusion, 469

Keratoacanthoma
Conjunctival keratoacanthoma (letter), 654

Keratoconjunctivitis
Microsporidal keratoconjunctivitis (letter), 380

Keratoconus
Visual improvement as a function of time after lamellar keratoplasty for keratoconus, 207

Keratoplasty
An adjustable double running suture technique for keratoplasty, 201
Visual improvement as a function of time after lamellar keratoplasty for keratoconus, 207

L

Lacrimal apparatus
Pneumococcal endophthalmitis associated with nasolacrimal obstruction, 56
Pneumococcal endophthalmitis associated with nasolacrimal obstruction—correction (correspondence), 780
A prospective, randomized comparison of thermal cautery and argon laser for permanent punctal occlusion, 469
Varix of the angular vein manifesting as a medial canthal mass (letter), 245

Laser
Corneal endothelial changes after excimer laser photorefractive keratectomy, 692

Diode-laser photocoagulation for zone 1 threshold retinopathy of prematurity, 444

Histopathologic characteristics of failed holmium laser sclerostomy (letter), 766

Holmium:YAG endonasal laser dacryocystorhinostomy, 1

Laser treatment of choroidal neovascularization in patients with angioid streaks, 414

Late detachment of Descemet's membrane after subconjunctival THC:YAG (holmium) laser thermal sclerostomy ab externo (letter), 514

Management of the posterior capsule during pediatric intraocular lens implantation (correspondence), 656

Pattern-reversal electroretinographic follow-up of laser photocoagulation for subfoveal lesions in age-related macular degeneration, 148

A prospective, randomized comparison of thermal cautery and argon laser for permanent punctal occlusion, 469

Stereoscopic photography with a scanning laser ophthalmoscope, 484

Subretinal endophotocoagulation in the treatment of choroidal neovascularization, 279

Traumatic corneal abrasions after excimer laser keratectomy (letter), 101

Lateral geniculate nucleus

Lateral geniculate nucleus in glaucoma, 182

Leber's hereditary optic neuropathy

DNA diagnosis of Leber's hereditary optic neuropathy by using dried blood specimens (letter), 773

Lens

Comparison of the Lens Opacities Classification System II and Lensmeter 701, 617

Lens clarity after vitrectomy in traumatic lens perforation and vitreous penetration (letter), 250

The use of perfluorophenanthrene in the removal of intravitreal lens fragments, 196

Lenticonus

Unilateral posterior lenticonus with persistent hyaloid artery remnant (letter), 104

Lipid

Lipid exudation in age-related macular degeneration, 140

Lithium

Lithium-induced downbeat nystagmus in a patient with Arnold-Chiari malformation (letter), 648

Lyme borreliosis

Long-term effects of ceftriaxone treatment on intraocular Lyme borreliosis, 571

Lymphoma

Hodgkin's lymphoma of the orbit associated with acquired immunodeficiency syndrome (letter), 111

Intraocular lymphoma after liver transplantation (letter), 507

Lymphomatous optic neuropathy (letter), 774

M

Macula

Classification of aphakic cystoid macular edema with focal macular electroretinograms, 576

Effect of the vitreous on the prognosis of full-thickness idiopathic macular hole, 273

Resolution of an absolute scotoma and improvement of relative scotomata after successful macular hole surgery, 129

Risk of decreased visual acuity in full-thickness idiopathic macular holes, 708

Subretinal endophotocoagulation in the treatment of choroidal neovascularization, 279

Vitreous findings in cases of optic nerve pits and serous macular detachment, 38

Macular degeneration

Lipid exudation in age-related macular degeneration, 140

Pattern-reversal electroretinographic follow-up of laser photocoagulation for subfoveal lesions in age-related macular degeneration, 148

Meetings, Conferences, Symposia

Fifteenth Biennial Meeting of the Association of Ophthalmic Alumni of the Armed Forces Institute of Pathology (RODMAN, H.), 783

Melanoma

Cell proliferation as a prognostic indicator in conjunctival malignant melanoma, 93

Membranoproliferative glomerulonephritis

Membranoproliferative glomerulonephritis type II associated with central serous retinopathy, 410

Meningitis

Optic nerve sheath decompression for visual loss in patients with acquired immunodeficiency syndrome and cryptococcal meningitis with papilledema, 472

Miconazole

Subconjunctival miconazole and anterior segment blastomycosis (letter), 506

Micropipette

A glass micropipette holder for ophthalmic surgical procedures (letter), 511

Miochol

Corneal edema after miochol (letter), 236

Mitomycin C

Application of mitomycin C during filtering surgery (letter), 377

Clinical and histopathologic observations concerning hypotony after trabeculectomy with adjunctive mitomycin C, 673

Ocular hypotony after trabeculectomy with mitomycin C, 314

Trabeculectomy with mitomycin C for refractory glaucoma in blacks, 72

Molteno implant

Acquired Brown's syndrome after a double-plate Molteno implant (letter), 641

Muscle
Cysticercosis as a cause of severe medial rectus muscle myositis (letter), 510
The effect of anterior transposition of the inferior oblique muscle, 224
Muscle loss from doxorubicin injections into the eyelids of a patient with blepharospasm (letter), 646
Paresis of a vertical rectus muscle after cataract extraction, 424

***Mycobacterium* sp.**
Comparison of topical antibiotics for treating *Mycobacterium fortuitum* keratitis in an animal model, 700

Myopia
Radial keratotomy for intolerable myopia after penetrating keratoplasty (correspondence), 115

Myositis
Cysticercosis as a cause of severe medial rectus muscle myositis (letter), 510

N

Nadolol
Nadolol in the treatment of central serous retinopathy (letter), 770

Neovascularization
Laser treatment of choroidal neovascularization in patients with angioid streaks, 414
Subretinal endophotocoagulation in the treatment of choroidal neovascularization, 279

Nystagmus
Lithium-induced downbeat nystagmus in a patient with Arnold-Chiari malformation (letter), 648

O

Obituaries
Braley, Alson Emmons 1906–1993 (THOMPSON, H. S.), 259
Cogan, David Glendenning 1908–1993 (NORTON, E. W. D.), 784
Leopold, Irving H. 1915–1993 (APT, L.), 660
Morris, Julian M. 1942–1993 (STRAATSMA, B. R.), 260

Occlusion
A prospective, randomized comparison of thermal cautery and argon laser for permanent punctal occlusion, 469
Risk factors for branch retinal vein occlusion, 286

Ocular injury
Assault-related penetrating ocular injury, 26

Oncocytoma
Peripunctal eyelid oncocytoma (letter), 385

Opacity
Comparison of the Lens Opacities Classification System II and Lensmeter 701, 617

Ophthalmia nodosa
Tarantula hair ophthalmia nodosa (letter), 381

Ophthalmoscopy
Stereoscopic photography with a scanning laser ophthalmoscope, 484

Optic disk
Growth of the human optic disk and nerve during gestation, childhood, and early adulthood, 748
Optic disk risk factors for nonarteritic anterior ischemic optic neuropathy, 759
Vitrectomy for persistent vitreous hemorrhage from a cavernous hemangioma of the optic disk (letter), 106

Optic nerve
Comparison of Nidek 3Dx and Donaldson simultaneous stereoscopic disk photography, 741
The efficacy of optic nerve sheath decompression for anterior ischemic optic neuropathy and other optic neuropathies (correspondence), 254
Factors associated with visual loss in patients with advanced glaucomatous changes in the optic nerve head, 176
Growth of the human optic disk and nerve during gestation, childhood, and early adulthood, 748
Measurement and relationship of subarachnoid pressure of the optic nerve to intracranial pressures in fresh cadavers, 548
Optic disk risk factors for nonarteritic anterior ischemic optic neuropathy, 759
Optic nerve sheath decompression for visual loss in patients with acquired immunodeficiency syndrome and cryptococcal meningitis with papilledema, 472
Pseudotumor cerebri in a 12-year-old boy with Addison's disease (letter), 650
Vitreous findings in cases of optic nerve pits and serous macular detachment, 38

Optic neuropathy
Bilateral optic neuropathy as the initial manifestation of systemic sarcoidosis (letter), 108
Lymphomatous optic neuropathy (letter), 774
Predicted outcome from hypotensive therapy for glaucomatous optic neuropathy, 636

Orbit
Combined embolization and surgical treatment of arteriovenous malformation of the orbit, 17
Combined embolization and surgical treatment of arteriovenous malformation of the orbit (correspondence), 655
Hodgkin's lymphoma of the orbit associated with acquired immunodeficiency syndrome (letter), 111
Ocular and orbital toxicity after intracarotid cisplatin therapy (letter), 508
Results of transantral orbital decompression in 428 patients with severe Graves' ophthalmopathy, 533
A simplified technique of orbital decompression for severe retrobulbar hemorrhage, 34

Spontaneous orbital hemorrhage in a child with autoimmune hepatitis (letter), 384

Orbitotomy
Measurement and relationship of subarachnoid pressure of the optic nerve to intracranial pressures in fresh cadavers, 548

P

Papilledema
Optic nerve sheath decompression for visual loss in patients with acquired immunodeficiency syndrome and cryptococcal meningitis with papilledema, 472

Paresis
Paresis of a vertical rectus muscle after cataract extraction, 424

Penetrating keratoplasty
Radial keratotomy for intolerable myopia after penetrating keratoplasty (correspondence), 115

Perfluorodecalin
Experimental long-term vitreous replacement with purified and nonpurified perfluorodecalin, 565

Perfluorophenanthrene
The use of perfluorophenanthrene in the removal of intravitreal lens fragments, 196

Perimetry
An evaluation of clusters in the glaucomatous visual field, 684

Perspectives
Another reevaluation of combined cataract and glaucoma surgery (correspondence), 517

The current interaction of residents and fellows in ophthalmology, 98

Optic disk risk factors for nonarteritic anterior ischemic optic neuropathy, 759

Potential retinal phototoxicity, 497

Predicted outcome from hypotensive therapy for glaucomatous optic neuropathy, 636

Phacoemulsification
Effects of apraclonidine on intraocular pressure and blood-aqueous barrier permeability after phacoemulsification and intraocular lens implantation, 67

Trabeculectomy, phacoemulsification, and posterior chamber lens implantation with and without 5-fluorouracil, 594

Photocoagulation
Diode-laser photocoagulation for zone 1 threshold retinopathy of prematurity, 444

Pattern-reversal electroretinographic follow-up of laser photocoagulation for subfoveal lesions in age-related macular degeneration, 148

Subretinal endophotocoagulation in the treatment of choroidal neovascularization, 279

Photophobia
Bilateral *Acanthamoeba* keratitis and gas-permeable contact lenses (letter), 651

Phototoxicity
Potential retinal phototoxicity, 497

Phthisis bulbi
Prevention of enucleation of two phthisic eyes by removal of extruding silicone scleral buckles (letter), 645

Pigment dispersion syndrome
Asymmetric pigmentary glaucoma caused by unilateral angle recession (letter), 765

Pigment epithelium
Giant retinal pigment epithelial tears in acute retinal necrosis, 302

Positron emission tomography
Positron emission tomography and ^{18}F-fluorodeoxyglucose for the detection of visual pathway abnormalities in albinism (letter), 112

***Propionibacterium* sp.**
Propionibacterium acnes endophthalmitis after *Staphylococcus epidermidis* endophthalmitis (letter), 505

Prosthesis
Postoperative endophthalmitis resulting from prosthesis contamination in a monocular patient, 346

***Proteus* sp.**
Postoperative endophthalmitis resulting from prosthesis contamination in a monocular patient, 346

Pseudotumor cerebri
Pseudotumor cerebri as a complication of amiodarone therapy (letter), 776

Pseudotumor cerebri in a 12-year-old boy with Addison's disease (letter), 650

Pseudoxanthoma elasticum
Indocyanine green angiographic findings in pseudoxanthoma elasticum (letter), 767

Punctum
A prospective, randomized comparison of thermal cautery and argon laser for permanent punctal occlusion, 469

R

Radial keratotomy
Radial keratotomy for intolerable myopia after penetrating keratoplasty (correspondence), 115

Refraction
Depth of anisometropic amblyopia and difference in refraction, 431

Refractive power calculations for intraocular lenses in the phakic eye, 63

Retina
Anticardiolipin antibodies in isolated retinal vasculitis (letter), 769

Association of herpes zoster ophthalmicus with acquired immunodeficiency syndrome and acute retinal necrosis, 297

Giant retinal pigment epithelial tears in acute retinal necrosis, 302

Nadolol in the treatment of central serous retinopathy (letter), 770

Potential retinal phototoxicity, 497

Relative letter and position difficulty on visual acuity charts from the early treatment diabetic retinopathy study, 735

Relaxing retinotomy with silicone oil or long-acting gas in eyes with severe proliferative vitreoretinopathy Silicone Study report 5, 557

Resolution of an absolute scotoma and improvement of relative scotomata after successful macular hole surgery, 129

Retinal hemorrhages as an early sign of acute bacterial endophthalmitis (letter), 247

The retinal irradiance and spectral properties of the multiport illumination system for vitreous surgery, 489

Retinal lesions in septicemia, 728

Risk factors for branch retinal vein occlusion, 286

Subretinal neovascular membranes in Vogt-Koyanagi-Harada syndrome, 164

Retinal detachment
Prevention of enucleation of two phthisic eyes by removal of extruding silicone scleral buckles (letter), 645

Risk factors for development of rhegmatogenous retinal detachment in patients with cytomegalovirus retinitis, 713

Retinitis pigmentosa
The prevalence of retinitis pigmentosa and congenital stationary night blindness in Israel (letter), 373

Retinopathy
Recurrence of presumed varicella-zoster virus retinopathy in patients with acquired immunodeficiency syndrome, 42

Retinopathy associated with low-dose tamoxifen (letter), 372

Retinopathy of prematurity
Diode-laser photocoagulation for zone 1 threshold retinopathy of prematurity, 444

Retinotomy
Relaxing retinotomy with silicone oil or long-acting gas in eyes with severe proliferative vitreoretinopathy Silicone Study report 5, 557

Rosacea
Efficacy of doxycycline and tetracycline in ocular rosacea, 88

Rosai-Dorfman disease
Rosai-Dorfman disease involving four eyelids (letter), 382

S

Sarcoidosis
Bilateral optic neuropathy as the initial manifestation of systemic sarcoidosis (letter), 108

Sclera
Use of ultrasound biomicroscopy in the assessment of anterior scleral disease, 628

Scleral buckle
Prevention of enucleation of two phthisic eyes by removal of extruding silicone scleral buckles (letter), 645

Sclerostomy
Histopathologic characteristics of failed holmium laser sclerostomy (letter), 766

Late detachment of Descemet's membrane after subconjunctival THC:YAG (holmium) laser thermal sclerostomy ab externo (letter), 514

Scotoma
Resolution of an absolute scotoma and improvement of relative scotomata after successful macular hole surgery, 129

Septicemia
Retinal lesions in septicemia, 728

Severe proliferative vitreoretinopathy
Relaxing retinotomy with silicone oil or long-acting gas in eyes with severe proliferative vitreoretinopathy Silicone Study report 5, 557

Shunt
Aqueous tube-shunt implantation and pars plana vitrectomy in eyes with refractory glaucoma, 189

Silicone oil
Relaxing retinotomy with silicone oil or long-acting gas in eyes with severe proliferative vitreoretinopathy Silicone Study report 5, 557

Slit lamp
Vitreous photography with a wide-angle preset slit-lamp lens (letter), 513

***Staphylococcus* sp.**
Endophthalmitis caused by *Staphylococcus aureus*, 584

Propionibacterium acnes endophthalmitis after *Staphylococcus epidermidis* endophthalmitis (letter), 505

Stereoscopic disk photography
Comparison of Nidek 3Dx and Donaldson simultaneous stereoscopic disk photography, 741

Storage media
Optisol containing streptomycin (letter), 503

***Streptococcus* sp.**
Pneumococcal endophthalmitis associated with nasolacrimal obstruction, 56

Streptomycin
Optisol containing streptomycin (letter), 503

Suture
An adjustable double running suture technique for keratoplasty, 201

T

T cell
Clinical and immunologic features of human T-cell lymphotropic virus type I uveitis, 156

Tamoxifen
Retinopathy associated with low-dose tamoxifen (letter), 372

Tarsorrhaphy
Modified tarsal pillar tarsorrhaphy (letter), 103

Tetracycline
Efficacy of doxycycline and tetracycline in ocular rosacea, 88

Timolol
Effects of ocular carteolol and timolol on plasma high-density lipoprotein cholesterol level, 600

Tomography
In vivo optical coherence tomography (letter), 113

Tono-Pen
Reproducibility of postural changes in intraocular pressure with the Tono-Pen and Pulsair tonometers, 479

Use of a Tono-Pen for long-term home tonometry (letter), 643

Tonometry
Reproducibility of postural changes in intraocular pressure with the Tono-Pen and Pulsair tonometers, 479

Use of a Tono-Pen for long-term home tonometry (letter), 643

Trabeculectomy
Clinical and histopathologic observations concerning hypotony after trabeculectomy with adjunctive mitomycin C, 673

Ocular hypotony after trabeculectomy with mitomycin C, 314

A prospective trial of intraoperative fluorouracil during trabeculectomy in a black population, 612

Trabeculectomy with mitomycin C for refractory glaucoma in blacks, 72

Trabeculectomy, phacoemulsification, and posterior chamber lens implantation with and without 5-fluorouracil, 594

Trauma
Assault-related penetrating ocular injury, 26

Paresis of the abducens nerve after trivial head injury (letter), 387

Tuberculin
Tuberculin-triggered panuveitis in a patient recently treated for active pulmonary tuberculosis (letter), 771

Tumor
Chiasmal compression from fat packing after transsphenoidal resection of intrasellar tumor in two patients (correspondence), 253

U

Ulcer
Corneal ulcer caused by combined intravenous and anesthetic abuse of cocaine (letter), 241

Uveitis
Clinical and immunologic features of human T-cell lymphotropic virus type I uveitis, 156

Intraocular lymphoma after liver transplantation (letter), 507

Role of the vitreous in the prognosis of peripheral uveitis, 401

Tuberculin-triggered panuveitis in a patient recently treated for active pulmonary tuberculosis (letter), 771

V

Varicella-zoster
Recurrence of presumed varicella-zoster virus retinopathy in patients with acquired immunodeficiency syndrome, 42

Varix
Varix of the angular vein manifesting as a medial canthal mass (letter), 245

Vasculitis
Anticardiolipin antibodies in isolated retinal vasculitis (letter), 769

Vein
Risk factors for branch retinal vein occlusion, 286

Varix of the angular vein manifesting as a medial canthal mass (letter), 245

Virus
Clinical and immunologic features of human T-cell lymphotropic virus type I uveitis, 156

Recurrence of presumed varicella-zoster virus retinopathy in patients with acquired immunodeficiency syndrome, 42

Visual acuity
Relative letter and position difficulty on visual acuity charts from the early treatment diabetic retinopathy study, 735

Risk of decreased visual acuity in full-thickness idiopathic macular holes, 708

Visual field
An evaluation of clusters in the glaucomatous visual field, 684

Visual-evoked response
The visual-evoked response in infants with central visual impairment, 437

Vitelliform macular dystrophy
Monozygotic twin sisters with adult vitelliform macular dystrophy (letter), 246

Vitrectomy
Aqueous tube-shunt implantation and pars plana vitrectomy in eyes with refractory glaucoma, 189

Lens clarity after vitrectomy in traumatic lens perforation and vitreous penetration (letter), 250

Management of the posterior capsule during pediatric intraocular lens implantation (correspondence), 656

The retinal irradiance and spectral properties of the multiport illumination system for vitreous surgery, 489

Vitrectomy for persistent vitreous hemorrhage from a cavernous hemangioma of the optic disk (letter), 106

Vitreous
Effect of the vitreous on the prognosis of full-thickness idiopathic macular hole, 273
Experimental long-term vitreous replacement with purified and nonpurified perfluorodecalin, 565
Lens clarity after vitrectomy in traumatic lens perforation and vitreous penetration (letter), 250
Long-term effects of ceftriaxone treatment on intraocular Lyme borreliosis, 571
The retinal irradiance and spectral properties of the multiport illumination system for vitreous surgery, 489
Role of the vitreous in the prognosis of peripheral uveitis, 401
The use of perfluorophenanthrene in the removal of intravitreal lens fragments, 196
Vitreous findings in cases of optic nerve pits and serous macular detachment, 38
Vitreous photography with a wide-angle preset slit-lamp lens (letter), 513

Vitreous hemorrhage
Vitrectomy for persistent vitreous hemorrhage from a cavernous hemangioma of the optic disk (letter), 106

Vogt-Koyanagi-Harada syndrome
Subretinal neovascular membranes in Vogt-Koyanagi-Harada syndrome, 164

ABSTRACT INDEX

A

Accommodation
Chromatic aberration and accommodation. Their role in emmetropization in the chick, 393

Reduced accommodation in children with Down syndrome, 394

Achromatopsia
Color perception profiles in central achromatopsia, 263

Aging
The appearance of stippled retinal pigment epithelial detachments. A sign of occult choroidal neovascularization in age-related macular degeneration, 123

Ophthalmic diseases in bedridden patients with severe dementia, 665

Treatment of age-related subfoveal neovascular membranes by teletherapy. A pilot study, 395

Albinism
The blindness of John Milton, 126

Amaurosis fugax
Amaurosis fugax, 666

Treatment of vasospastic amaurosis fugax with calcium-channel blockers, 666

Amblyopia
Monocular visual outcome in untreated early onset esotropia, 790

Analgesia
Management of postoperative pain. Influence of anesthetic and analgesic choice, 664

Anemia
Blue sclerae. A sign of iron deficiency anemia in children?, 527

Anesthesia
Cocaine hydrochloride topical solution prepared for ophthalmic use, 787

Comparison of regional ophthalmic anesthesia produced by pH-adjusted 0.75% and 0.5% bupivacaine and 1% and 1.5% etidocaine, all with hyaluronidase, 663

Local anaesthesia for eye surgery without a facial nerve block, 392

Management of postoperative pain. Influence of anesthetic and analgesic choice, 664

A modified retrobulbar block for eye surgery, 787

The pupillary light reflex. Effects of anesthetics and hyperthermia, 791

Retrobulbar hemorrhage after 12,500 retrobulbar blocks, 393

Anterior chamber
The effect of intraocular lens (IOL) length and design on anterior chamber depth under contraction and relaxation of the ciliary muscle, 522

Intraoperative bacterial contamination of the aqueous humor, 523

The medical management of traumatic hyphaema. A survey of opinion among ophthalmologists in the UK, 664

Anterior segment
Topical cyclosporin A in the treatment of anterior segment inflammatory disease, 786

Antibiotic
Vancomycin resistance. Decoding the molecular logic, 523

Antibody
Serum antiocular antibodies in patients with juvenile rheumatoid arthritis, 789

Antigen
Repertoires of autoantibodies against homologous eye muscle in ocular and generalized myasthenia gravis differ, 528

Aqueous humor
Intraoperative bacterial contamination of the aqueous humor, 523

Aspirin
Localized periorbital edema induced by aspirin, 669

Asthma
Association of ocular cataracts with inhaled and oral steroid therapy during long-term treatment of asthma, 120

Astigmatism
Clinical and anatomical study of the effect of transscleral fixation of posterior chamber lenses on early postkeratoplasty astigmatism, 522

Atherosclerosis
Anterior ischemic optic neuropathy is not associated with carotid artery atherosclerosis, 264

Automated perimetry
Threshold variation in automated perimetry, 122

B

Bacteria
Intraoperative bacterial contamination of the aqueous humor, 523

Vancomycin resistance. Decoding the molecular logic, 523

Blepharitis
Ophthalmic diseases in bedridden patients with severe dementia, 665

Botulinum toxin
Botulinum A toxin for treatment of aberrant facial nerve regeneration, 266

Bullous pemphigoid
Immune-mediated subepithelial blistering diseases of mucous membranes. Pure ocular cicatricial pemphigoid is a unique clinical and immunopathological entity distinct from bullous pemphigoid and other subsets identified by antigenic specificity of autoantibodies, 261

Bupivacaine
Comparison of regional ophthalmic anesthesia produced by pH-adjusted 0.75% and 0.5% bupivacaine and 1% and 1.5% etidocaine, all with hyaluronidase, 663

C

Caffeine
Perioperative ingestion of caffeine and postoperative headache, 787

Capsule
Capsule contraction syndrome, 786

Inhibition of posterior capsule opacification. The effect of colchicine in a sustained drug delivery system, 663

Pseudoexfoliation syndrome. Clinical factors related to capsular rupture in cataract surgery, 392

Capsulorhexis
Continuous curvilinear (circular) capsulorhexis and planned extracapsular cataract extraction. Are they compatible?, 120

Carbon dioxide
Effects of oxygen and carbon dioxide on human retinal circulation, 791

Carotid artery
Anterior ischemic optic neuropathy is not associated with carotid artery atherosclerosis, 264

Cataract
Association of ocular cataracts with inhaled and oral steroid therapy during long-term treatment of asthma, 120

Capsule contraction syndrome, 786

Comparison of regional ophthalmic anesthesia produced by pH-adjusted 0.75% and 0.5% bupivacaine and 1% and 1.5% etidocaine, all with hyaluronidase, 663

Continuous curvilinear (circular) capsulorhexis and planned extracapsular cataract extraction. Are they compatible?, 120

Dexmedetomidine as intramuscular premedication in outpatient cataract surgery. A placebo-controlled dose-ranging study, 0

The effect of intraocular lens (IOL) length and design on anterior chamber depth under contraction and relaxation of the ciliary muscle, 522

Formation of free radicals during phacoemulsification, 392

Incidence and management of complications of transsclerally sutured posterior chamber lenses, 663

Inhibition of posterior capsule opacification. The effect of colchicine in a sustained drug delivery system, 663

Measurement of the axial length of cataract eyes by laser Doppler interferometry, 261

Ophthalmic diseases in bedridden patients with severe dementia, 665

Patient outcomes with co-managed post-operative care after cataract surgery, 121

Pseudoexfoliation syndrome. Clinical factors related to capsular rupture in cataract surgery, 392

Radiation dose to the lens and cataract formation, 391

Cell proliferation
Minoxidil inhibits ocular cell proliferation and lysyl hydroxylase activity, 121

Central retinal vein occlusion
Color Doppler flow imaging in central retinal vein occlusion. A new diagnostic technique?, 525

Children
Acquired ocular visual impairment in children. 1960–1989, 124

Aetiology of perforating eye injury, 528

Blue sclerae. A sign of iron deficiency anemia in children?, 527

A defective visual pathway in children with reading disability, 125

Disclosure of a diagnosis to children and adolescents when parents object. A clinical ethics analysis, 669

Guidelines for ophthalmologic examinations in children with juvenile rheumatoid arthritis, 788

Myopia and myopic progression among schoolchildren. A three-year follow-up study, 789

Reduced accommodation in children with Down syndrome, 394

Serum antiocular antibodies in patients with juvenile rheumatoid arthritis, 789

The surgical management of orbitofacial dermoids in the pediatric patient, 397

Visual function in children with developmental disabilities, 526

19th Annual Frank Castenbader Lecture. The origins of congenital esotropia, 790

Choroid
The appearance of stippled retinal pigment epithelial detachments. A sign of occult choroidal neovascularization in age-related macular degeneration, 123

The clinical spectrum of ocular lymphoma, 788

Treatment of age-related subfoveal neovascular membranes by teletherapy. A pilot study, 395

Cicatricial pemphigoid
Immune-mediated subepithelial blistering diseases of mucous membranes. Pure ocular cicatricial pemphigoid is a unique clinical and immunopathological entity distinct from bullous pemphigoid and other subsets identified by antigenic specificity of autoantibodies, 261

Colchicine
Inhibition of posterior capsule opacification. The effect of colchicine in a sustained drug delivery system, 663

Color vision
Color perception profiles in central achromatopsia, 263

The Nagel anomaloscope and seasonal variation of colour vision, 527

Computed tomography
Lesions causing a mass in the medial canthus of the orbit. CT and MR features, 397

The role of orbital ultrasound in the diagnosis of orbital fractures, 529

Conjunctivitis
Ophthalmic diseases in bedridden patients with severe dementia, 665

Contact lens
Complications and symptoms with disposable daily wear contact lenses and conventional soft daily wear contact lenses, 261

Cornea
Clinical and anatomical study of the effect of transscleral fixation of posterior chamber lenses on early postkeratoplasty astigmatism, 522

Does topical hydrogen peroxide penetrate the cornea?, 786

Formation of free radicals during phacoemulsification, 392

Mooren's corneal ulcers and hepatitis C virus infection, 391

Optical zone diameters for photorefractive corneal surgery, 391

Cortex
Functional topographic mapping of the cortical ribbon in human vision with conventional MRI scanners, 792

Corticosteroid
Association of ocular cataracts with inhaled and oral steroid therapy during long-term treatment of asthma, 120

Topical cyclosporin A in the treatment of anterior segment inflammatory disease, 786

***Cryptococcus* sp.**
Catastrophic visual loss due to *Cryptococcus neoformans* meningitis, 668

Cyclosporin
Topical cyclosporin A in the treatment of anterior segment inflammatory disease, 786

Cyst
The surgical management of orbitofacial dermoids in the pediatric patient, 397

D

Dacryocystitis
Ophthalmic diseases in bedridden patients with severe dementia, 665

Decompression
Transfrontal orbital decompression after failure of transantral decompression in optic neuropathy of Graves' disease, 397

***Demodex* sp.**
The *Demodex* mite population in rosacea, 126

Dexmedetomidine
Dexmedetomidine as intramuscular premedication in outpatient cataract surgery. A placebo-controlled dose-ranging study, 0

Diabetes mellitus
The effect of long-term intensified insulin treatment on the development of microvascular complications of diabetes mellitus, 525

Long-term complications of diabetes mellitus, 395

Diabetic retinopathy
The effect of long-term intensified insulin treatment on the development of microvascular complications of diabetes mellitus, 525

Long-term complications of diabetes mellitus, 395

Ophthalmic diseases in bedridden patients with severe dementia, 665

Doppler flow imaging
Color Doppler flow imaging in central retinal vein occlusion. A new diagnostic technique?, 525

Doppler interferometry
Measurement of the axial length of cataract eyes by laser Doppler interferometry, 261

Down syndrome
Reduced accommodation in children with Down syndrome, 394

E

Edema
Localized periorbital edema induced by aspirin, 669

Neuro-ophthalmic complications of intracranial catheters, 667

Emmetropia
Chromatic aberration and accommodation. Their role in emmetropization in the chick, 393

Endocrine
Graves' disease, endocrine ophthalmopathy and smoking, 267

Endophthalmitis
Intraoperative bacterial contamination of the aqueous humor, 523

Esotropia
Monocular visual outcome in untreated early onset esotropia, 790

19th Annual Frank Castenbader Lecture. The origins of congenital esotropia, 790

Etidocaine
Comparison of regional ophthalmic anesthesia produced by pH-adjusted 0.75% and 0.5% bupivacaine and 1% and 1.5% etidocaine, all with hyaluronidase, 663

Eugenics
Eugenics revisited, 267

Eyelash
The *Demodex* mite population in rosacea, 126

Eyelid
Botulinum A toxin for treatment of aberrant facial nerve regeneration, 266

Levator palpebrae superioris muscle. MR evaluation of enlargement as a cause of upper eyelid retraction in Graves disease, 668

F

Filtering surgery
Primary surgery for primary open angle glaucoma. Justified or not?, 664

G

Genetics
Cytogenetic analysis of uveal melanoma. Consistent occurrence of monosomy 3 and trisomy 8q, 123

Linkage analysis of Norrie disease with X-chromosomal ornithine aminotransferase, 124

Retinal transplantation and gene therapy. Present realities and future possibilities, 122

Glaucoma
The blindness of John Milton, 126

Migraine headache and its association with open-angle glaucoma. The Beaver Dam Eye Study, 788

Open-angle glaucoma, 121

Primary surgery for primary open angle glaucoma. Justified or not?, 664

Sensitivity and specificity of optic disc parameters in chronic glaucoma, 394

Glioma
Moyamoya phenomenon after radiation for optic glioma, 667

Graves' disease
Levator palpebrae superioris muscle. MR evaluation of enlargement as a cause of upper eyelid retraction in Graves disease, 668

Graves' ophthalmopathy
Graves' disease, endocrine ophthalmopathy and smoking, 267

Transfrontal orbital decompression after failure of transantral decompression in optic neuropathy of Graves' disease, 397

H

Headache
Migraine headache and its association with open-angle glaucoma. The Beaver Dam Eye Study, 788

Perioperative ingestion of caffeine and postoperative headache, 787

Health care
Disclosure of a diagnosis to children and adolescents when parents object. A clinical ethics analysis, 669

Falling off the pedestal. What is happening to the traditional doctor-patient relationship?, 268

Medicine and post-modernity, 792

Physicians' autonomy. The relation between public and professional expectations, 268

Health-care costs
On loaves and fishes, 670

Reducing health care costs by reducing the need and demand for medical services, 669

Who should be screened for HIV infection? A cost-effectiveness analysis, 398

Hematoma
Local anaesthesia for eye surgery without a facial nerve block, 392

Hemorrhage
Accidental head trauma and retinal hemorrhage, 665

Neuro-ophthalmic complications of intracranial catheters, 667

Retrobulbar hemorrhage after 12,500 retrobulbar blocks, 393

Hepatitis
Mooren's corneal ulcers and hepatitis C virus infection, 391

Human immunodeficiency virus
Zidovudine in persons with asymptomatic HIV infections and CD4+ cell counts greater than 400 per cubic millimeter, 524

Hyperthermia
The pupillary light reflex. Effects of anesthetics and hyperthermia, 791

Hyphema
The medical management of traumatic hyphaema. A survey of opinion among ophthalmologists in the UK, 664

I

Immunodeficiency virus
Who should be screened for HIV infection? A cost-effectiveness analysis, 398

Infants
Infrared eye injury not due to radiant warmer use in premature neonates, 394

Insulin
The effect of long-term intensified insulin treatment on the development of microvascular complications of diabetes mellitus, 525

Intraocular lens
Clinical and anatomical study of the effect of transscleral fixation of posterior chamber lenses on early postkeratoplasty astigmatism, 522

The effect of intraocular lens (IOL) length and design on anterior chamber depth under contraction and relaxation of the ciliary muscle, 522

Incidence and management of complications of transsclerally sutured posterior chamber lenses, 663

Intraocular pressure
Strength of the lens capsule during hydroexpression of the nucleus, 120

Ischemia
Predictors of major vascular events in patients with a transient ischemic attack or nondisabling stroke, 264

Ischemic optic neuropathy
Anterior ischemic optic neuropathy is not associated with carotid artery atherosclerosis, 264

J

Juvenile rheumatoid arthritis
Guidelines for ophthalmologic examinations in children with juvenile rheumatoid arthritis, 788

Serum antiocular antibodies in patients with juvenile rheumatoid arthritis, 789

K

Keratectomy
Optical zone diameters for photorefractive corneal surgery, 391

Keratopathy
Clinical and anatomical study of the effect of transscleral fixation of posterior chamber lenses on early postkeratoplasty astigmatism, 522

Keratoplasty
Clinical and anatomical study of the effect of transscleral fixation of posterior chamber lenses on early postkeratoplasty astigmatism, 522

Incidence and management of complications of transsclerally sutured posterior chamber lenses, 663

L

Laser
Optical zone diameters for photorefractive corneal surgery, 391

Lens
Capsule contraction syndrome, 786

Radiation dose to the lens and cataract formation, 391

Strength of the lens capsule during hydroexpression of the nucleus, 120

Lymphoma
The clinical spectrum of ocular lymphoma, 788

Radiotherapy is successful treatment for orbital lymphoma, 528

M

Macula
Ophthalmic diseases in bedridden patients with severe dementia, 665

Macular degeneration
The appearance of stippled retinal pigment epithelial detachments. A sign of occult choroidal neovascularization in age-related macular degeneration, 123

Maculopathy
The Beaver Dam eye study. The relation of age-related maculopathy, 124

Magnetic resonance imaging
Lesions causing a mass in the medial canthus of the orbit. CT and MR features, 397

Mapping
Functional topographic mapping of the cortical ribbon in human vision with conventional MRI scanners, 792

Medial canthus
Lesions causing a mass in the medial canthus of the orbit. CT and MR features, 397

Melanocyte
Detection of melanocytes from uveal melanoma in peripheral blood using the polymerase chain reaction, 791

Melanoma
Biological distinctions between cure and time to death in 2892 patients with intraocular melanoma, 262

Cytogenetic analysis of uveal melanoma. Consistent occurrence of monosomy 3 and trisomy 8q, 123

Detection of melanocytes from uveal melanoma in peripheral blood using the polymerase chain reaction, 791

Five cases of coexistent primary ocular and cutaneous melanoma, 123

Sereologic estimation of nucleolar volume in ocular melanoma. A comparative study of size estimators with prognostic impact, 526

Tumor progression in ocular melanomas, 262

Memory
Localization of a memory trace in the mammalian brain, 265

Minoxidil
Minoxidil inhibits ocular cell proliferation and lysyl hydroxylase activity, 121

Moyamoya
Moyamoya phenomenon after radiation for optic glioma, 667

Multiple sclerosis
Optic neuritis and multiple sclerosis. Anti-MBP and anti-MBP peptide antibody-secreting cells are accumulated in CSF, 396

Muscle
The effect of intraocular lens (IOL) length and design on anterior chamber depth under contraction and relaxation of the ciliary muscle, 522

The 'embryonic' gamma subunit of the nicotinic acetylcholine receptor is expressed in adult extraocular muscle, 263

Lack of evidence supporting the presence of mRNA for the thyrotropin receptor in extraocular muscle, 668

Levator palpebrae superioris muscle. MR evaluation of enlargement as a cause of upper eyelid retraction in Graves disease, 668

A modified retrobulbar block for eye surgery, 787

Repertoires of autoantibodies against homologous eye muscle in ocular and generalized myasthenia gravis differ, 528

Temporalis muscle for facial reanimation. A 13-year experience with 224 procedures, 266

Myasthenia gravis

Repertoires of autoantibodies against homologous eye muscle in ocular and generalized myasthenia gravis differ, 528

Myopia

Myopia and myopic progression among schoolchildren. A three-year follow-up study, 789

Risk factors for idiopathic rhegmatogenous retinal detachment, 524

N

Nagel anomaloscope

The Nagel anomaloscope and seasonal variation of colour vision, 527

Neovascularization

The appearance of stippled retinal pigment epithelial detachments. A sign of occult choroidal neovascularization in age-related macular degeneration, 123

Treatment of age-related subfoveal neovascular membranes by teletherapy. A pilot study, 395

Nerve

Botulinum A toxin for treatment of aberrant facial nerve regeneration, 266

Neurofibromatosis

Orbitotemporal neurofibromatosis. Classification and treatment, 529

Nicotinic acetylcholine receptor

The 'embryonic' gamma subunit of the nicotinic acetylcholine receptor is expressed in adult extraocular muscle, 263

Night blindness

Retinal disease masquerading as spasmus nutans, 666

Norrie disease

Linkage analysis of Norrie disease with X-chromosomal ornithine aminotransferase, 124

Nucleus

Strength of the lens capsule during hydroexpression of the nucleus, 120

Nystagmus

Latent nystagmus. Release and suppression at will, 125

O

Ocular torsion

Skew deviation with ocular torsion. A vestibular brainstem sign of topographic diagnostic value, 527

Oculomotor nerve

Isolated or predominant ocular motor nerve palsy as a manifestation or brain stem stroke, 264

Third-nerve palsy due to penetrating trauma, 667

Opacification

Inhibition of posterior capsule opacification. The effect of colchicine in a sustained drug delivery system, 663

Ophthalmopathy

Age and gender influence the severity of thyroid-associated ophthalmopathy. A study of 101 patients attending a combined thyroid-eye clinic, 267

Optic chiasm

Moyamoya phenomenon after radiation for optic glioma, 667

Neuro-ophthalmic complications of intracranial catheters, 667

Optic disk

Ophthalmic diseases in bedridden patients with severe dementia, 665

Sensitivity and specificity of optic disc parameters in chronic glaucoma, 394

Optic nerve

Detection of optic nerve lesions in optic neuritis using frequency-selective fat-saturation sequences, 125

Optic neuritis

Detection of optic nerve lesions in optic neuritis using frequency-selective fat-saturation sequences, 125

Optic neuritis and multiple sclerosis. Anti-MBP and anti-MBP peptide antibody-secreting cells are accumulated in CSF, 396

Orbit

Lesions causing a mass in the medial canthus of the orbit. CT and MR features, 397

Localized periorbital edema induced by aspirin, 669

Orbitotemporal neurofibromatosis. Classification and treatment, 529

Radiotherapy is successful treatment for orbital lymphoma, 528

Retrobulbar hemorrhage after 12,500 retrobulbar blocks, 393

The role of orbital ultrasound in the diagnosis of orbital fractures, 529

The surgical management of orbitofacial dermoids in the pediatric patient, 397

Transfrontal orbital decompression after failure of transantral decompression in optic neuropathy of Graves' disease, 397

Osteosarcoma

Bone tumors other than osteosarcoma after retinoblastoma, 395

Oxygen
Effects of oxygen and carbon dioxide on human retinal circulation, 791

P

Palsy
Isolated or predominant ocular motor nerve palsy as a manifestation or brain stem stroke, 264
Palsies of the trochlear nerve. Diagnosis and localization—recent concepts, 265

Paralysis
Temporalis muscle for facial reanimation. A 13-year experience with 224 procedures, 266

Paresis
Third-nerve palsy due to penetrating trauma, 667

Parkinson's disease
Cerebral transplantation for Parkinson's disease. Current progress and future prospects, 398

Perforating
Aetiology of perforating eye injury, 528

Perforating injury
Aetiology of perforating eye injury, 528

Phacoemulsification
Formation of free radicals during phacoemulsification, 392

Photic reflex
The photic sneeze reflex. Literature review and discussion, 265

Photopsia
Acute zonal occult outer retinopathy. Donders Lecture. The Netherlands Ophthalmological Society, Maastricht, The Netherlands, June 19, 1992, 524

Pseudoexfoliation syndrome
Pseudoexfoliation syndrome. Clinical factors related to capsular rupture in cataract surgery, 392

Pseudotumor cerebri
Cerebrospinal fluid diversion procedures in pseudotumor cerebri, 396

Pterygium
Ophthalmic diseases in bedridden patients with severe dementia, 665

Pupil
Brief report. Treatment of vasospastic amaurosis fugax with calcium-channel blockers, 666
The pupillary light reflex. Effects of anesthetics and hyperthermia, 791

R

Radiation
Moyamoya phenomenon after radiation for optic glioma, 667
Radiation dose to the lens and cataract formation, 391

Reading disability
A defective visual pathway in children with reading disability, 125

Retina
Accidental head trauma and retinal hemorrhage, 665
The appearance of stippled retinal pigment epithelial detachments. A sign of occult choroidal neovascularization in age-related macular degeneration, 123
Central retinal vein occlusion in young adults, 262
The clinical spectrum of ocular lymphoma, 788
Effects of oxygen and carbon dioxide on human retinal circulation, 791
Ophthalmic diseases in bedridden patients with severe dementia, 665
Retinal disease masquerading as spasmus nutans, 666
Retinal transplantation and gene therapy. Present realities and future possibilities, 122

Retinal detachment
The blindness of John Milton, 126
Risk factors for idiopathic rhegmatogenous retinal detachment, 524

Retinitis pigemntosa
Retinitis pigmentosa. The Friedenwald lecture, 122

Retinoblastoma
Bone tumors other than osteosarcoma after retinoblastoma, 395
Mortality from second tumors among long-term survivors of retinoblastoma, 790

Retinopathy
Acute zonal occult outer retinopathy. Donders Lecture. The Netherlands Ophthalmological Society, Maastricht, The Netherlands, June 19, 1992, 524

Retinopathy of prematurity
Infrared eye injury not due to radiant warmer use in premature neonates, 394

Rosacea
The *Demodex* mite population in rosacea, 126

S

Sclera
Blue sclerae. A sign of iron deficiency anemia in children?, 527
Incidence and management of complications of transsclerally sutured posterior chamber lenses, 663

Skew deviation
Skew deviation with ocular torsion. A vestibular brainstem sign of topographic diagnostic value, 527

Smoking
Graves' disease, endocrine ophthalmopathy and smoking, 267

Spasmus nutans
Retinal disease masquerading as spasmus nutans, 666

Strabismus
Is there a cholinergic and an adrenergic phase of the oculocardiac reflex during strabismus surgery?, 526
Monocular visual outcome in untreated early onset esotropia, 790
Visual function in children with developmental disabilities, 526
Stroke
Isolated or predominant ocular motor nerve palsy as a manifestation or brain stem stroke, 264
Predictors of major vascular events in patients with a transient ischemic attack or nondisabling stroke, 264
Surgery
Zen and the art of surgery, 792

T

Trauma
Accidental head trauma and retinal hemorrhage, 665
Third-nerve palsy due to penetrating trauma, 667
Trochlear nerve
Palsies of the trochlear nerve. Diagnosis and localization—recent concepts, 265
Tumor
Bone tumors other than osteosarcoma after retinoblastoma, 395
Mortality from second tumors among long-term survivors of retinoblastoma, 790
Tumor progression in ocular melanomas, 262

U

Ulcer
Mooren's corneal ulcers and hepatitis C virus infection, 391
Ultrasonography
Color Doppler flow imaging in central retinal vein occlusion. A new diagnostic technique?, 525
Ultrasound
The role of orbital ultrasound in the diagnosis of orbital fractures, 529
Uvea
Cytogenetic analysis of uveal melanoma. Consistent occurrence of monosomy 3 and trisomy 8q, 123
Sereologic estimation of nucleolar volume in ocular melanoma. A comparative study of size estimators with prognostic impact, 526
Uveitis
Classification of 750 consecutive uveitis patients in the Rotterdam Eye Hospital, 665

V

Vancomycin
Vancomycin resistance. Decoding the molecular logic, 523
Vasospasm
Brief report. Treatment of vasospastic amaurosis fugax with calcium-channel blockers, 666
Vein
Central retinal vein occlusion in young adults, 262
Vision
The blindness of John Milton, 126
Visual cortex
Functional topographic mapping of the cortical ribbon in human vision with conventional MRI scanners, 792
Rapid remodeling of axonal arbors in the visual cortex, 393
Visual disorder
Acquired ocular visual impairment in children. 1960–1989, 124
A defective visual pathway in children with reading disability, 125
Visual function
Visual function in children with developmental disabilities, 526
Visual loss
Catastrophic visual loss due to *Cryptococcus neoformans* meningitis, 668
Vitreous
The clinical spectrum of ocular lymphoma, 788

Z

Zidovudine
Zidovudine in persons with asymptomatic HIV infections and CD4+ cell counts greater than 400 per cubic millimeter, 524
